C-CARE

NATURAL VITAMIN C FOR POULTRY HEALTH & PERFORMANCE

 **GLOBAL
AGROVETS**
The Symbol of Quality

सी-केअर

These ingredients provide a rich and natural source of Vitamin C and supportive phytonutrients.

- * **C-Care** is a natural and highly bio available source of Vitamin C designed to support
- * Poultry health during periods of stress and high production. While chickens can
- * Synthesize Vitamin C naturally, additional supplementation becomes essential during
- * Heat stress, rapid growth, and intensive production cycles.
- * **C-Care** helps maintain electrolyte balance, supports immunity, and contributes to
- * Proper calcification, ensuring better overall performance and productivity in poultry.

Composition

C-Care contains natural extracts of:

- Acerola Cherry
- Amla
- Lemon Juice
- Ocimum sanctum (Holy Basil)
- Alfalfa

C-Care Water Soluble Liquid

Content

1. Role of Amla.

(Embllica officinalis), also known as amalaki, is a potent rejuvenating herbal adaptogen, renowned for its impressive list of health benefits and all-encompassing support. Offering a high concentration of natural antioxidants and vitamin C, amla is a powerful ally for strengthening the immune system, nourishing the tissues, and gently removing toxins. Good for Heat stress.

2.Role of Acerola cherries.

are a potent, nutrient-dense superfood renowned for an exceptionally high Vitamin C content.

Presentation : 1 ltr. & 5kg
