

A Perfect Enzyme Solution For Poultry Feed

EnrichzymeTM

Enrichzyme™

A Perfect Enzyme Solution For Poultry Feed

Composition :

β -Glucanase, Xylanase, Pectinase, Cellulase
Protease (Acid & Neutral), β -Mannanase, Amylase, Lipase

Advantages:

- Optimal utilization of anti-nutritional factors of feed stuff
- Maximizing feed protein use
- Efficient within the range of digestive tract pH variations
- Better adaptation to feedstuffs variability

Benefits

- Increases bioavailability of carbohydrate, protein & fat
- Improves digestibility of feed ingredients & FCR
- Improves laying percentage
- Reduces loose droppings
- Allows flexibility of incorporating low cost feed ingredients
- Improves egg mass and quality
- Recommended during climate change, stress and post vaccination stress

Recommended Usage

Breeders / Layers : 20 ml / 100 birds through water for 5-7 Day's.

Chicks : 5-10 ml / 100 birds through water for 5-7 Day's.

Broilers : 20 ml / 100 bird's through water for 5-7 Day's.

As a Directed by Veterinarian

Presentation : 1 ltr & 5 ltr

Manufactured & Marketed by :

GLOBAL AGROVETS
