Natural Enzymes**

OvaBoost **Advanced**

For Improving Ovary Function in Layers & Breeders

OvaBoost Advanced

For Improving Ovary Function in Layers & Breeders

Composition :

Herbal extract of Alfalfa, Withania Somnifera, Asparagus racemosa, Croton tiglium, Bambusa arundinacea, Natural vitamins & bioavailable minerals & natural enzymes

Features :

➤ **OvaBoost Advanced** is a unique poultry feed supplement based on herbs extract that energizes the entire body physiology in Layer / Breeder so as to overcome such deterrent factors that lower their production performances. For optimizing the reproductive functions & maintaining peak egg production.

Benefits :

- Improves egg production with laying persistence
- Helps in regulating ovaries function in laying birds
- Helps improve egg shell thickness and cracks in eggs
- Restores drop in egg production due to any kind of stress
- Optimum absorption of Calcium and Phosphorus

Dosages :

In Water

Layer - 10ml / 100 birds daily
Breeders - 15ml/100 birds daily
During stress for 10 days
or as suggested by veterinarian
