The Symbol Of Quality ...

TOXIRICCH-XP™

A Broad Spectrum Toxin Binder

BINDING EFFICACY FOR ENDOTOXIN

TOXIRICCH-XP™

Adsorbs very effective poisonous endotoxins Ensures a steady intestinal flora, a basis for healthy animals
Saves from economical losses

COMPOSITION :

Unique formulation contain Kerolite, montmorillonite and saponite

BENEFITS :

- Broad spectrum toxin binder
- **TOXIRICCH-XP** is composed of purified smectite which is a combination of montmorillonite and saponite
- **TOXIRICCH-XP** has large surface area (546 M^2 per gram) compared to other toxin binders in market Pore size of **TOXIRICCH-XP** is $19\text{\AA}$ (lesser than vitamins and minerals)
- **TOXIRICCH-XP** binds all toxins including Endotoxin
- **TOXIRICCH-XP** does not bind vitamins and minerals
- **TOXIRICCH-XP** is an imported product which is dioxin free and pass
- **TOXIRICCH-XP** binds all chemical toxins

MIXING RATE IN FEED :

Mixing rate of **TOXIRICCH-XP** depends upon the concentration of mycotoxins in the feed and severity of symptoms in target animals. The suggested mixing rate is 500 g - 1 Kg / Ton of feed.

**TOXIRICCH-XP
does not bind
feed nutrients**

PRESENTATION:

25 kg polybag inside drum

Note : Please refer to the product label for safety, storage and other required information before use.
